COMP ONE CELEBRATES 10 YEARS OF MANAGING WORKERS' COMPENSATION CLAIMS

Boardman, OH – January 2, 2013 – Comp One, a Managed Care Organization (MCO), celebrates 10 years of managing Workers' Compensation claims for employers and injured workers. The company was certified by the BWC in 2002.

For employers, CompOne provides medical case management, works to keep premiums low and to reduce unnecessary lost-time workers' compensation claims. They will also create a plan of action to return the injured worker to the workplace with possible resolution of claims. The company helps keep employers' costs down and employees on the job while providing a Preferred Provider Panel. For injured workers, CompOne provides support throughout the claims process by assisting in filing claims with the Bureau of Workers' Compensation (BWC). This prevents delays and evaluates appropriateness and necessity of medical service for a quick recovery and return to work. The company also handles the medical management of an injured worker's claim, authorizes medical treatment reimbursement decisions, resolves medical disputes, recommends rehab referrals and supplies customized forms.
